Summary of PPO *Benefits*

Benefit Period April 1-March 31

A PPO, or Preferred Provider Organization, offers two levels of benefits. If you receive services from a provider who is in the PPO network, you'll receive the highest level of benefits. If you receive services from a provider who is not in the PPO network, you'll receive the lower level of benefits. In either case, you coordinate your own care. There is no requirement to select a Primary Care Physician (PCP) to coordinate your care. Below are specific benefit levels.

This is only a summary. For more information about your coverage, or to get a copy of the complete terms of coverage, visit http://icubabenefits.org or by calling 1-866-377-5102. Important Questions	Answers	Why This Matters:
What is the overall deductible?	**$4,000** in-network per person; **$8,000** family/**$8,000** out-of-network per person; **$16,000** family.	You must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the plan, each family member must meet their own individual deductible until the total amount of deductible expenses paid by all family members meets the overall family deductible. The deductible starts over each April 1st. See the chart starting on page 2 for how much you pay for covered services after you meet the deductible.
Are there services covered before you meet your deductible?	Yes. Deductible doesn't apply to in-network: preventive care, Teladoc, office visits, prescription drugs, outpatient facility labs, or advanced imaging. Doesn't apply to in- or out-of-network: emergency room, urgent care, convenient care, or emergency transportation.	This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost-sharing and before you meet your deductible. See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/.
Are there other deductibles for specific services?	No.	You do not have to meet deductibles for specific services, but see the chart starting on page 2 for other costs for services this plan covers.
What is the out-of-pocket limit for this plan?	**$5,350** in-network per person; **$10,700** family/ **$10,700** out-of-network per person/ **$21,400** family. There is a separate out-of-pocket limit for prescription drugs (see page 3).	The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan, they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met.
What is not included in the out-of-pocket limit?	Premiums, balance-billing charges, and health care this plan doesn't cover.	Even though you pay these expenses, they don't count toward the out–of–pocket limit.
Will you pay less if you use a network provider?	Yes. See http://myhealthtoolkitfl.com, contact Essential Advocate at 1-888-521-2583 or call BCBS customer service at 1-855-258-9029 for a list of network providers.	This plan uses a provider network. You will pay less if you use a provider in the plan's network. You will pay the most if you use an out-of-network provider, and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware, your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services. See the chart starting on page 2 for how this plan pays different kinds of providers.
Do you need a referral to see a specialist?	No.	You can see the specialist you choose without permission from this plan.

All **copayment** and **coinsurance** costs shown in this chart are after your **deductible** has been met, if a **deductible** applies.

About these Coverage Examples:

This is not a cost estimator. Treatments shown are just examples of how this plan might cover medical care. Your actual costs will be different depending on the actual care you receive, the prices your providers charge, and many other factors. Focus on the cost sharing amounts (deductibles, copayments and coinsurance) and excluded services under the plan.
